

JSC “Prykarpattyablenergo” is actively communicating with international partners regarding support for Ukraine

Throughout the war, the company communicated to all of its international partners about the treacherous attack of the invaders on our country and solicited charitable aid to purchase things for refugees and their families.

JSC “Prykarpattyablenergo” conducts active correspondence with 82 European companies with which it jointly implements or plans to implement scientific projects with the support of the EU programs – Horizon 2020 and Horizon Europe. “We are actively explaining to our European partners what is happening in our country, in what way they can help Ukraine and what needs are most important for us now, - says Andriy Grabchuk, coordinator of negotiations. Of course, first of all, Ukraine needs the support for the Armed Forces, and we ask fellow Europeans to transfer funds to the special account of the NBU for the needs of the Army. We also ask European partners to help with the purchase of necessities for refugees through charitable donations to the accounts of Polish partners of the Maltese Relief Service of Ukraine (we ask you to donate to the Polish account, since many of the most necessary things for war victims have to be purchased abroad)”.

Yesterday, April 9, at the online meeting of the scientific and technical committee of the European Union grant program “ELECTRON”, the representative of JSC “Prykarpattyablenergo” Volodymyr Shcherbiak thanked European partners for their sincere support of Ukraine, for all charitable donations, as well as numerous words, calls and letters with wishes for peace and victory.

Andriy Grabchuk, head of the strategic planning and audit department, shared examples of support letters from European organizations that the company received these days:

Dear friends! We are pleased to see that all of Europe is now with you and for you. Ordinary citizens do not have the authority for key decisions regarding military assistance to you. But we act, we are with you, and we try to help you in any way we can – with materials sent to Ukraine, arranging shelters in European countries for refugees, providing free transport with private vehicles, or offering housing. Some young citizens come to assist you in the military. Europe is awakening. We understand the situation and your struggle today. Keep in mind that you are not alone, and all of Europe is with you! Do not give up! All the best and Slava Ukraini!

Bruno Rouchouze, THALES DIS FRANCE SA

Dear friends, I just want to express my deepest sympathy to you and your families. What you are experiencing these days is a terrible turn of events and a return to the darkest days of Europe. Yet the determination of the Ukrainian people to stand against aggression is a remarkable chapter in European history. I am glad to see that my country (Greece) is sending assistance, as well as my new home country (Norway), and ultimately the European Union stands by your side. I feel this strongly, and it is important for me to convey this message to you. Help is already on the way.

Vasileios Gkioulos, NORGES TEKNISK- NATURVITENSKAPELIGE UNIVERSITET NTNU

Dear friends, we will try to do everything possible to support you in this critical situation. Stay strong, we pray for you!

Emanuele Bellini, LOGOS Research and Innovation

Colleagues! I made a small financial contribution and send you my sincere thoughts. I also circulated your message throughout our organization. Stay strong!

Buningh Mark, NETHERLANDS ORGANISATION FOR APPLIED SCIENTIFIC RESEARCH

Dear colleagues! I shared the information below with my board of directors. We plan to act in a coordinated manner as a company. We will also share details of financial support with all employees of our company. We also plan to send first aid items. You are not alone! Best regards,

Maurizio Fantino, LINKS Foundation Italy
